

REMARKS

Applicants note that Figure 4, as originally disclosed, contains sequence disclosures. Accordingly, a new sequence listing has been provided incorporating said sequence disclosures. Additionally, the specification has been amended to include sequence identifiers for Figure 4, and to insert the new Sequence Listing. Neither of these amendments includes any new matter that goes beyond the original application as filed. Furthermore, the enclosed electronic and paper copies of the Sequence Listing are identical, and also include no new matter that goes beyond the original application as filed. Applicants respectfully submit that the above-identified application is now in compliance with 37 C.F.R. §§ 1.821-1.825.

Respectfully submitted,
